Hi Linda,

Yes, you are correct.

The D130-794-121 kit consists of:
D130-794-023
D350-794-141

However, Harvey and I think it's much easier to install the provisions kit if you have the actual tank there, so you know that it is positioned properly. But, I guess there are some provision installations work that can be done without the tank.

Dan

Kim has entered the P./N and we will ship the prov kit asap for this customer. I want to make sure this all goes out properly, so what would the D130-794-141 consist of? D130-794-023 and D350-794-141?
